These are only some of the clubs available to a student at MHS. As your child embarks on their high school career, please take the time to have them think seriously about becoming involved in one of the many clubs and activities that are offered at Merrimack High School. Students are encouraged to express their ideas for new clubs. Studies have shown that students who participate in activities have higher grade point averages, fewer discipline problems, better attendance rates, and greater connection to school. Being involved in a school club builds self-confidence and will enhance a student's ability to deal with competitive situations later in life.

Club Advisors and descriptions can be found on the Merrimack High School web page under STUDENTS. Don't see a club you are interested in listed? See Mrs. Hanlon.

We realize the importance of being involved in a school activity but also stress the importance of fulfilling academic requirements. If a student is struggling in a class(es) they should immediately seek help from their advisor, assistant principal, or guidance counselor.
