## About Odds

Odds Bodkin is a Master Storyteller, Author, Musician and Educator hailing from Bradford, New Hampshire. As a storyteller, Odds brings stories to life by combining dramatic voices, vocal effects, narrative and live music to create imaginative experiences for audiences.

Using only 12-string guitars, Celtic harp and folk instruments without electronic effects, he transforms his voice into heroes, giants, villains and animals while playing live music to create vivid, cinematic soundscapes. He also creates realistic effects with his voice—water droplets, wind, galloping hoofs, crashing waves—to add imagery to his tales.
