

Dear Merrimack Families~

Even as we wind down this academic year school and district leaders have been working at the same time to plan for the next school year when, we hope, schools can return to more normal operations. In order to do that, we ask that you provide your important feedback, via the survey link below, that will be used by the district's many task force groups in the development of the fall 2021 school reopening plan. You have been critical partners in this 15+ month challenge and have much valuable information to share to help make the return to "normal" operations as successful for students as it can be.

The survey will be open until 3pm Monday, June 14th. We have intentionally limited the survey length both to make it more likely to be completed by families and to focus on the most important considerations with regard to our students-their academic success. I invite you to complete the survey to help support a successful return to "normal" school operations after a truly challenging time for all.

Best Regards,

Mark McLaughlin
