

I am happy to welcome you to **2<sup>nd</sup>** Grade next fall. Some of the topics we will learn about next year are plant and animal relationships, force and motion, the continents, and earth, moon, and sun. We will build on reading, writing, and math skills, including more complex texts and 2-digit addition and subtraction.

I will provide many items that you will use in the classroom. There are a few things that you will need to bring.

Please bring:

- Plastic pencil box (approximately 5"x 8")
- 2 large glue sticks
- 1 dozen crayons (Twistable) **or** colored pencils
- 1 dozen **sharpened** pencils
- 4 thin **black** dry-erase markers
- Student scissors
- Markers (optional)
- Large box of tissues

**Please label EVERYTHING with child's name so that their items will not be shared.**

\*Hand wipes, desk wipes, and paper towels are always welcome and appreciated donations.\*

I hope you enjoy reading throughout the summer. Stop into the public library for books and programs. Return your RFS reading calendar in September for rewards. Please complete and return the "**Step Up to 2<sup>nd</sup> Grade**" section from your 1<sup>st</sup> grade math book for a reward.

I check my email throughout the summer. Send me an email so I can add your name to next year's class email list. I'd love to hear about your summer.

[donna.johnson@sau26.org](mailto:donna.johnson@sau26.org)

Sincerely,

Ms. Johnson

**See you in September!**
