**Help Homeless Families and Individuals Today!**

**26% of homeless people in Manchester are children.**  
In an emergency, they had no child-safe place to go, until now.

**Thank you for your interest in supporting Families in Transition – New Horizons.**

**Your support will help us to provide:**

A home for 80 parents with 120 children per year  
Critical healthcare for children and families on-site  
Services to assist continuity in education for homeless children  
Specialized therapeutic preschool for homeless children  
Guaranteed nutritious meals

A warm place for homeless families with their children to wait  
when they have no place to go. No more waiting in the police station waiting room or living in their car.
