Budget Proposal for 2021-2022

The accounts in the Department of Student Services budget are essentially child specific and contain costs for existing students in their current placements with related services and special transportation as determined by federal law and state rules and regulations. Services and costs may fluctuate, depending on the severity and number of students served.

The budget reflects an increase of approximately two-point-one percent (2.1%). This increase accounts for contractual increases for related services due to the COVID-19 pandemic and the need for a significantly longer extended school year program and compensatory education cost. This budget seeks to provide the same level of services as in prior years and ensures that we remain in compliance with IEP services for our students with educational disabilities.

This budget will maintain the school system's educational commitment and responsibility to students with special education needs and meet the requirements of Federal/State laws and regulations.

Respectfully Submitted,

A handwritten signature in cursive script that reads "Heather Barker".
