ELEMENTARY EDUCATION IN MERRIMACK

It is the goal of each elementary school to teach for student mastery the knowledge and skills required for success in our society; to foster within each student a positive feeling of his/her worth as an individual; and to develop (so far as possible) the unique talents which each person possesses.

The recognition of individual differences is an essential element in providing quality teaching and learning situations. Each child is unique; therefore, the educational program is designed so that each child progresses through a series of planned educational experiences at his/her own rate of learning. These experiences are planned to result in an individual who is proficient in basic skills, aware of his/her own potential, and proud to make positive contributions to the community and society.

Because the school is only one institution existing to assist students in becoming responsible and knowledgeable adults, the school staff and administration depend on the home and community to provide a supportive environment for each child's development.

Our goals for each child upon completing the elementary program are:

- ... to establish favorable work and play relationships among peers and among adults with whom s/he lives.
- ... to accept limits for actions and have a willingness to act on suggestions.
- ... to learn to complete tasks undertaken and develop study habits.
- ... to show poise, self-control, and self-direction suited to his/her age.
- ... to evaluate his/her own progress and see growth.
- ... to broaden his/her interests and begin to develop his/her unique abilities.
- ... to develop aesthetic appreciations.
- ... to put ideas into legible writing, using simple forms and pleasing language.
- ... to spell commonly used words correctly and know how to use references for others.
- ... to express ideas clearly and distinctly.
- ... to begin to understand the world and its people.
- ... to possess basic skills in language and mathematics.
- ... to have beginning concepts of size and distance.
- ... to use a variety of sources of information.
- ... to apply fundamental facts to problem solving situations s/he meets in daily life.
- ... to show self-respect and concern for others.
- ... to use technology responsibly and as a tool to support 21st century learning.

EDUCATIONAL SERVICES

Department of Student Services

The Department of Student Services provides diagnostic, remedial, and consultative services for students who are identified with a disability. Identification processes and programming are determined by a placement team in consultation with parents.

School Counseling

The school counselors and/or behavior specialist in each elementary school assist each student to benefit from the school experience through attention to his/her personal, social, emotional, and academic needs. The counselors work closely with other staff members and parents. The counselors coordinate standardized testing programs and provide individual and small group counseling and classroom guidance programs.

Language Arts Coordinator

The Language Arts Coordinator is responsible for overseeing English Language Arts instruction. Responsibilities include selection of literary programs, coordination of the diagnostic placement testing for new students, administration and analysis of data on reading assessments, consultation with educators in Professional Learning Teams and the placement team, and the development of a reading curriculum and evaluation procedure. The above are accomplished in cooperation with the staff and administration.

Title 1 Program

Title 1 is a federally funded program designed for participating children to improve their knowledge and skills necessary to meet the State's challenging proficiency standards. Title 1 Tutors provide children with supplemental, small-group instruction in reading and mathematics. Students are selected for the program based on assessment data and educator recommendation.

Library Services and Media

The Merrimack School Library Program offers students access to the district's entire collection of print and non-print resources to support their academic needs and pursue their interests. By teaching students how to find and use information, the library staff strives to help all students become independent, responsible and frequent users of information tools and technology.

Unified Arts

Each elementary school has full-time specialists in the areas of art, music, physical education and computer science, who meet with children in scheduled classes. The objective of these programs is to develop the aesthetic, perceptive, and creative potential of each child.

REPORTING STUDENT PROGRESS

Parent-educator Conferences

There are specified dates set aside for parent-educator conferences. You will be notified of the dates, and your participation is encouraged. Educators are also available for parent-educator conferences by a phone call to the school office or through a note to the educator. We encourage parents to contact the educator if they have any concerns or questions.

Report Cards

Reports of student progress are sent home four times a year. These reports cover 9-10 weeks. The reports indicate academic achievement and include educator evaluations of work habits which influence such achievement.

HOMework

Homework is intended to support student learning by providing opportunities for practice based on the differentiated needs of students. Homework should be designed by the educator to support learning and its completion is the responsibility of the student, under the assumption that practice supports deeper learning. The consequence of non-compliance or insufficient care with homework assignments rests with the student and will NOT be factored into a final academic grade but will likely result in diminished understanding and performance and, by extension, a reduced academic grade.

ATTENDANCE / TRUANCY

Merrimack School District Attendance Policy

Absences

The board requires that school-aged children enrolled in the district attend school in accordance with all applicable state laws and board policies. The educational program offered by the district is predicated upon the presence of the student and requires continuity of instruction and classroom participation in order for students to achieve academic standards and consistent classroom educational progress.

Attendance shall be required of all students enrolled in the school district during the days and hours that school is in session. The board considers the following to be excused absences:

1. Illness
2. Recovery from an accident
3. Required court attendance
4. Medical and dental appointments
5. Bereavment
6. Religious holiday
7. Absence excused by an administrator (e.g. adoption, family illness), or permitted by law

Any absence that has not been excused for one of the reasons listed above will be considered an unexcused absence.

In the event of an illness, parents must call and inform the school. For other excused absences, parents must provide written notice or a written excuse that states one of the reasons for non-attendance. The principal or his/her designee may require parents to provide additional documentation in support of their written notice, including, but not limited to doctor's notes, court documents, obituaries, or other documents supporting the claimed reason for non-attendance.

The principal or his/her designee may excuse a student for absences when receiving satisfactory evidence of conditions or reasons that may likely cause the student's absence. If parents wish for their child(ren) to be absent for a reason not listed above, the parents must provide a written explanation of the reason for that absence, including why and for how long the student will be absent. The principal or his/her designee will make a determination whether the stated reason for the student's absence constitutes good cause and will notify the parents in writing of his/her decision. If the principal or his/her designee determines that good cause does not exist, the parents may request a conference with the principal or his/her designee to again explain the reasons for non-attendance. The principal or his/her designee may then reconsider the initial determination.

Family Trips/Educational Opportunities

The school principal or his/her designee may also grant an excused absence for family trips, under the following conditions:

- Parents are required to provide, in writing, a note to the principal at least two weeks prior to the trip explaining the reason for the absence, including why and for how long the student will be absent due to the trip.
- The principal will make a determination and provide written notification of his/her decision to the parent in advance of the trip.

Please note that, even in the event of an excused absence due to a family trip, the report card must still reflect the absences.

Truancy

Truancy is defined as any unexcused absence from class or school.

Ten half-days or five full days of unexcused absence during a school year constitute habitual truancy.

A half-day absence is defined as a student missing more than two hours of instructional time and less than three and one-half hours of instructional time.

Any absence of more than three and one-half hours of instructional time shall be considered a full-day absence.

The principal or his/her designee or Truant Officer is hereby designated as a district employee responsible for overseeing truancy issues.

Developing and Coordinating Strategies for Truancy Reduction

The board encourages the administration to seek truancy-prevention and truancy-reduction strategies along with the recommendations listed below. The superintendent is authorized to develop and utilize other means, guidelines and programs aimed at preventing and reducing truancy.

1. Coordinate truancy-prevention strategies based on the early identification of truancy, such as prompt notification of absences to parents/guardians.
2. Assist school staff in developing site-based attendance teams.
3. Encourage and coordinate the adoption of attendance-incentive programs at school sites on an individual basis as a targeted intervention that rewards and celebrates good attendance and significant improvements in attendance.

Intervention Process to Address Truancy

The principal or his/her designee shall ensure that the administrative guidelines on attendance properly address the matter of truancy by utilizing a building attendance team whose role is to identify students who are habitually truant as defined above.

When the principal or his/her designee identifies a student who is habitually truant or who is in danger of becoming habitually truant, he/she shall commence a tiered intervention with the

student, the student's parents, and other staff members as may be deemed necessary. The tiered intervention shall be comprised of processes including, but not limited to:

1. Investigate the cause(s) of the student's truant behavior;
2. Consider, when appropriate, modification of the student's educational program to meet particular needs that may be causing the truancy;
3. Involve the parents/guardians in the development of a plan designed to reduce the truancy;
4. Seek alternative disciplinary measures, but still retain the right to impose discipline in accordance with the district's policies and administrative guidelines on student discipline.

Parent/Guardian Involvement in Truancy Intervention

When a student reaches habitual truancy status or is in danger of reaching habitual truancy status, the principal or his/her designee will send the student's parent/guardian a letter which includes:

1. A statement that the student has become or is in danger of becoming habitually truant;
2. A statement of the parent's/guardian's respons-

ibility to ensure that the student attends school; and

3. A request for a meeting between the parents/guardians and the principal or his/her designee to discuss the student's truancy and develop a plan for reducing the student's truancy.

Parent/Guardian Notification of Truancy Policy

The superintendent shall ensure that this policy is included in or referenced in the parent/student handbook and is communicated to parents/guardians annually at the beginning of each school year.

DISMISSAL

To assure student safety, parents are asked to call the school by 8:30 a.m. if students will be absent from school. Parents should also have children dismissed through the school office. No adults should go to classrooms to pick up their children.

A student will be considered tardy after 8:30 a.m. Parents are responsible for communicating to the school office the reason for the child's tardiness.

It is important for us to work together and to make every effort to have children be here and on time to take advantage of each and every instructional moment of the school day.

Early Dismissal

Dismissal from school should be requested only when absolutely necessary and will only take place through the school office:

- ... upon written request of the parent or guardian or notification by school authorities. In case of emergency, a verbal request may be honored.
- ... when the destination and the person to whom the child is to be dismissed are known by the administration and approved by the parent or guardian.
- ... when suitable transportation to that destination is provided.

In situations where legal custody of a pupil is a serious matter, please be sure the school office has knowledge of this fact so that we may act accordingly.

Transfer to Another School

If you anticipate moving, please notify the school either through a phone call or a note.

SUPERVISION OF STUDENTS

Parents should understand that no educators are available to supervise children in the morning before the arrival of the first bus at 8:00 a.m. No supervision is provided in the afternoon after the departure of the last bus.

We request that parents not allow their children to be at school during these unsupervised times for their safety.

HEALTH SERVICES

The goal of school health services is to advance the well-being, academic success, and safety of all students. School nurses attempt to ensure access to primary health care, provide a system for dealing with crisis medical situations, provide mandated screening and immunization monitoring, and provide a process for identification and resolution of students' health care needs that affect educational achievement. Primary focus is on prevention and early intervention.

The school nurse provides acute, chronic, episodic, and emergency health care. The school nurse assumes responsibility for appropriate assessment, planning, intervention, evaluation, management, and referral activities for students within the school. Health screening such as vision and hearing are conducted as necessary and as mandated by state and district policies. Individual Health Plans are formulated and implemented when needed. Immunizations and physical exams are reviewed. The school nurse monitors health and safety issues within the building, district, and community and acts as liaison between the physician, school, community, and home. Please inform the nurse of any special medical needs your child may have.

A permanent emergency card is on file for every child. These cards are used daily in the case of injury or illness. Parents should notify the nurse of any change of telephone numbers of the people to be called in an emergency, including any change in work numbers.

No medication shall be dispensed or administered to any child except by the school nurse, building principal and/or designee.

A physician's written order and a written parent release form must be submitted for prescription medication (the prescription label is not a substitute for the written physician's order).

Please do not send medicine to school with your child. All medication must be brought to school and picked up by the parent. All medication must be in the original properly-labeled container. Prescription medication should be in the most recent, updated bottle. Written parental release is also required for over-the-counter medication to be administered to a student, including the dosage, time schedule and method of taking the medication.

Communicable Disease/Injury/Surgery

The nurse will check on any re-admissions to school. In the event of a suspected communicable disease, injury, or surgery, the nurse may request a report from the child's physician for re-admission to school and/or activity limitations. Should there be an outbreak of a communicable disease for which a child has not been immunized due to medical or religious reasons, that child may be excluded according to the recommendations of the

New Hampshire Division of Health and Human Services, Bureau of Disease Control.

It is the recommendation of district nurses to consider keeping your child home if he/she presents the following conditions:

- a fever (100 degrees or more) within the last 24 hours
- a persistent, chronic cough
- an unfamiliar rash
- has been vomiting or having diarrhea during the night or the morning of school.

A child will be sent home with the above conditions. It is the responsibility of the parents to provide transportation.

A child should not be sent to school if s/he cannot participate in all school activities, including recess and physical education. *When a medical condition warrants a change in the normal school routine, the nurse will request a report from the treating physician.*

The Childhood Diseases chart (found on page 22) is a partial listing of communicable diseases for your information and reference. Please direct any question relative to these or other diseases to your school nurse.

GENERAL INFORMATION

School Insurance

The school does not assume financial responsibility for expense of medical or dental treatment required by students as a result of accidents while at school or going to or from school. Therefore, a voluntary insurance plan is made available to parents who desire such protection.

The adoption of this plan of insurance was made by your school board as a public service. Each child is given an application form to take home in September. Forms are also available in the school office at any time during the school year. All medical and dental insurance applications should be sent directly to the company.

School Cancellation

The decision to cancel school will be made and announced no later than 6:30 a.m. These announcements will be made on local radio stations and Channel 9-WMUR. In addition, the district's Automated Calling System may be incorporated.

Delayed School Opening Policy

The two hour delayed school opening policy, if utilized during inclement weather, will be announced on the following radio and television stations: WGIR; WBZ; WFEA/WZID; and the television station Channel 9. The district's Automated Calling System may be used to inform parents of delays. A delayed opening will mean that all bus transportation will be delayed two hours and that the opening of school on that day will also be delayed by two hours. There will be no morning kindergarten or

morning preschool when there is a delayed opening. The time for the closing of school at the end of the day on which a delayed opening is called will remain the same.

Emergency School Closing Procedures

Parents will be notified by the District-Wide Communication System. Please make sure your phone numbers and email addresses are kept current. Additionally, all school closing will be announced over local television and radio stations.

It is the policy of the Merrimack School District to reserve the concept of a shortened school day for emergency situations. An emergency situation may be interpreted as loss of water pressure, heat, electricity, or inclement weather during the school day.

When the entire school is dismissed early by authority of the superintendent and/or the school board, all attempts will be made to notify parents through the media, Automated Calling System, and other available sources of public information. Parents who work, or are not at home, should make arrangements for the care of their child when school is dismissed early.

Lost and Found

A lost and found box is kept in each school. You may stop by the school to check for lost articles. Identification is facilitated when clothing and other personal belongings are clearly marked with the child's name. Unclaimed lost and found articles are donated to local charities periodically.

Lunch Program

A hot lunch program is available in each elementary school. Lunch prices change from year to year. School lunch prices are announced at the beginning of each school year.

Celebration Guidelines

When planning celebrations:

- Focus on non-food ways to celebrate
- Provide healthy food options
- Limit the amount of food available
- Monitor portion sizes

School celebrations can be an opportunity to reinforce the nutrition knowledge learned in the classroom and be a time where students can practice and learn to make healthy choices. Celebrations are an occasion to consider food as a compliment to the event.

Parent Groups

Parent groups exist in each school. More volunteers are always needed. Please contact your school for more information.

School Day

Children in grades K-4 enter school at 8:25 a.m. and are dismissed at 2:45 p.m. Children are considered late if they

arrive after 8:30 a.m. During the regular school day, children have a snack, lunch, and a recess

For parents of kindergarteners who elect to have their child enrolled in a half day only, the day is from 8:25-11:15 and transportation from school is the parent's responsibility.

Pre-school

Please contact your child's school for school hours.

Telephone

When you find it necessary to telephone your child at the school, the message will be relayed to him/her. This should be done only in an emergency situation. If possible, all instructions should be given to your child before s/he leaves home in the morning. Parents are discouraged from communicating to their children via electronic devices during school hours, as this causes disruption to the learning environment.

Educators may be reached one-half hour before school opens or after school is dismissed at 2:45 p.m. A message may be taken at any time for an educator. Unless there is an emergency, the educator will not be called to the phone during the school day.

Student Assessments

Throughout the year formative and standardized assessments will be administered to your child. These assessments assist us in planning and evaluating instruction and programs to meet the needs of the students. Every effort should be made to have your child attend school when assessments are being given.

Tutoring

Tutoring is available after 10 consecutive days of absence and should be requested through the Department of Student Services.

Visitors to the School

Any visitor (a person not acting at the time as an employee of the school district) must report to the school office upon entering a school building. Please use the main entrance. Visitor passes will be issued and must be worn while in the school building and on school grounds.

Moment of Silence

The Merrimack School Board has directed the superintendent to establish regulations that make available a moment of silence consisting of approximately 15-20 seconds each school day as part of the opening exercises for each school.

Letters/Notices Brought to School by Students

If a student wants to give an invitation or notice to another student(s), it must be in an envelope with the receiving student's name on the envelope, and given out before/after school or at recess, not during class time.

ANNUAL NOTIFICATION OF RIGHTS CONCERNING STUDENT RECORDS AND DIRECTORY INFORMATION

Student Records

State and Federal law has guaranteed parents and eligible students access to student education record information and control over the release of information to others. The parent or eligible student has the following rights:

1. The right to inspect and review the student's education records.
2. The right to request corrections in the student's educational records.
3. The right to file a complaint with the U.S. Department of Education if the Merrimack School District violates the Family Education Rights and Privacy Act.
4. It is the intent of the Merrimack School District to limit the disclosure of information contained in a student's education record except: (a) by the prior written consent of the student's parent or the eligible student, (b) as directory information, or (c) under certain limited circumstances, as permitted by the Family Education Rights and Privacy Act.
5. The Merrimack School District has written policies and procedures governing your rights. Copies of these are available through the Director of Student Services, Merrimack School District.

Directory Information

The Merrimack School District (MSD) defines directory information as the student's name, address, telephone number, date of birth, participation in officially recognized activities and sports, weight and height of members of athletic teams, photograph, dates of attendance, awards, and most recent educational institution attended.

The Merrimack School District will continue to release such directory information at its discretion to external sources upon receipt of a request for such information unless a parent or student eighteen years of age requests such information be withheld.

Parents or students eighteen years of age may refuse designation of any or all of the aforementioned directory information for a specific student provided that a written request to that effect is received by the Superintendent of Schools, 36 McElwain Street, Merrimack, NH 03054, by September 15 of each school year.

Publication of Student Information

The Merrimack School District (MSD) maintains education records and may provide information designated as Directory Information consistent with the Family Educational Rights and Privacy Act (FERPA). Each year, the MSD shall give parents public notice of the types of information designated as Directory Information and

will release such Directory Information, at its discretion, to external sources upon receipt of a request for such information unless a parent requests that such information be withheld. By a specified time after parents are notified of the review rights, parents may request in writing to remove all or part of the information on their child that they do not wish to be available to the public. Such approval shall be renewed on an annual basis. Items of Directory Information, which is information not generally considered harmful or an invasion of privacy if disclosed, may include:

- I. Name and address of a student
- II. Field of study
- III. Weight and height of athletes
- IV. Most recent previous school attended
- V. Date and place of birth
- VI. Participation in officially recognized activities and sports
- VII. Date of attendance, degrees and awards

Religious Rights and Responsibilities

Religious rights and responsibilities of students and educators have been and always will be a part of the Merrimack School District. Literature describing these rights and responsibilities is available in each school library. The following resources are currently available on this topic: Religious Expectations in the Public School (a memo from the Secretary of Education, Richard Riley, dated August 10, 1995) and Religion in Public Schools: A Joint Statement of Current Law (dated April 1995). Similar literature is available in the Merrimack Public Library for parents and other interested citizens.

Student Dress

Concerning appropriate clothing for elementary students, we request that students not come to school with short shorts, short gym shorts, halters, half-tops, tank tops, flip flops, and in general, clothing better suited for the beach or leisure wear. Additionally, we ask that students not wear clothing which advertises alcohol or tobacco, contains profanity, or promotes the use of illegal substances. Students are asked not to wear hats, hoodies, sunglasses and head bandanas inside the school building. Should we have difficulty with respect to a child's attire, we will call parents and ask them to bring in a change of clothing.

Play Items/Cell Phones Brought to School

We request that students not bring play items (e.g. electronic games, trading cards, wireless devices, stuffed animals/dolls and cell phones) to school. This also pertains to cameras unless authorized by an educator for a field trip or class project. Cell phones will only be allowed with permission from the administration. Permission must be requested in writing by parents. We make that request because these items often distract from the educational process. We would appreciate your cooperation in keeping these items at home.

Homeless Situations

If your family lives in any of the following situations:

- In a shelter, motel, vehicle, or campground
- On the street
- In an abandoned building, trailer, or other inadequate accommodations, or
- doubled up with friends or relatives because you cannot find or afford housing

Your preschool-aged and school-aged children have certain rights or protections under the McKinney-Vento Homeless Education Assistance Act. Please contact Merrimack Coordinator, Jodi Hanley at (603) 365-7111 or (603) 424-6200 for further information.

Educator Qualifications

The Merrimack School District adheres to New Hampshire's educator Certification Requirements under the Every Student Succeeds Act (ESSA) 2015. Parents have the right to know the qualifications of their child's educator. This includes state certification and degrees held. Information may be obtained from the superintendent's office at 424-6200.

ELEMENTARY DISCIPLINE CODE

Revised Statutes Annotated, Chapter 189:9-a and Revised Statutes Annotated, Chapter 193:13 refer to the authorization of the superintendent, or his/her representative, to suspend and/or dismiss students for specific reasons. It is recognized that both educators and administrators need discretionary power to invoke disciplinary actions and procedures, and to maintain a climate conducive to learning and the protection of life and property.

The purpose of the elementary discipline code is to provide clear and consistent guidelines for a safe learning environment. In order to achieve this purpose, we need to teach and expect respect for self and others as well as insure the physical safety of all.

Students are responsible for their actions and need to be held accountable for their decisions. They need to know adults care enough for them to insure that they adhere to school rules. School personnel have a responsibility to address inappropriate actions by students at any time during the school day.

It is the educator's responsibility to maintain good discipline in the classroom, school building and on the playground. Misbehavior will result in corrective action by educators or referral to administration. Referrals to administration for disciplinary action could result in but are not limited to the following:

... *vandalism*

up to three days loss of recess, after-school detention, complete restitution, in-school/out-of-school suspension up to three/five days, legal action when appropriate

APPEAL PROCEDURES FOR PARENTS

Administrative Procedure 1007; Complaints, Petitions

The Merrimack School Board is committed to open and accurate communication. Therefore, a procedure has been established to assure that questions and problems which occur in daily school operations are addressed. The School Board believes that the best communication occurs when it involves the individuals with the most knowledge about the situation; therefore, parents are urged to contact the teacher to discuss any classroom issue which they question. If an issue or problem is not clarified through the teacher or faculty member, the parent should contact the department head or assistant principal, and then, if necessary, the building principal for further discussion. Issues not related directly to the classroom program should be addressed to the building principal. Failing solution at the building level, the citizen should contact the office of the Superintendent of Schools (424-6200) for further discussion. If, in the opinion of the citizen, the issue is in need of additional dialogue, the citizen should request that the issue be placed on the School Board agenda for a hearing and decision making.

This process is illustrated in the diagram below:

TITLE ID — SEX EQUITY IN EDUCATION

The Merrimack School Board reaffirms its position that the strength of this nation and the welfare of humanity depend to a great extent on the conservation and intelligent development of human and natural services. In order that these principles be realized we, the Merrimack School Board, propose to work for the elimination of barriers that prevent full access to equal educational leadership by eliminating discrimination against any segment of our school community. More specifically, we reaffirm our commitment not to discriminate on the basis of sex in the programs and activities which we operate. Any complaints or alleged infractions of this policy, the law, or any applicable regulations will be processed through the "Grievance Procedure for Alleged Violations of Section 504, Title IX, and the Americans with Disabilities Act."

Three (3) persons will be considered a quorum. Appointments shall be for one year periods but reappointment is possible.

While all time limits may be waived for due cause, or extended by mutual consent, the following procedure generally will apply:

WELLNESS POLICY

The district is committed to providing positive, safe, and healthy learning communities at every level to ensure that staff and students have the opportunity to achieve overall well-being.

The district recognizes the importance of delivering high quality wellness education. Specifically, this policy establishes goals and procedures to ensure that the district:

- Offers access to healthy foods that are aligned with the USDA Guidelines, as well as quality nutrition education that helps develop lifelong healthy eating behaviors.
- Provides physical education and physical activity programs.
- Provides education in the areas of social, emotional and mental health intended to nurture overall well-being.
- Establishes and maintains an infrastructure for management, oversight, implementation, communication about, and monitoring of the policy and its established goals and objectives.

Nutrition Guidelines and Education

The school district's nutritional standards are based upon standards established by the USDA and New Hampshire Healthy School Coalition/Best Practices. These nutrition guidelines apply to all foods available to students on school grounds during the day.

The district aims to teach, model, encourage and support healthy eating habits. Schools will provide educational programming that will provide students with the knowledge and skills necessary to promote and protect their health.

Schools shall be mindful of the availability of balanced food options during celebrations and events.

Physical Education and Activity

The district recognizes that the integration of healthy physical education and physical activity are a communal responsibility intended to minimize health risks created by extended periods of inactivity, childhood obesity, and other related health problems. The district encourages students and staff to participate in developmentally appropriate physical activity and exercise for 60 minutes each day as a way to minimize these health risks.

Schools will work to integrate health and physical activity across the school curriculum as well as to encourage the integration of physical activity before, during, and after school hours.

Mental Wellness

The Merrimack School District is committed to supporting the social/emotional welfare and behavioral needs of all students in the educational process. The district recognizes that social and emotional wellness is critical for academic achievement and success. Collaboration with students, parents/guardians, staff and the community will be an integral part of this commitment to enhance our students' emotional, mental and physical health.

Implementation and Evaluation

A district-wide wellness advisory committee has been established with the purpose of assessing the nutrition and physical activity environment throughout the district and making recommendations to the school board for a comprehensive wellness program. The committee consists of representation from parents, students, the school district's food service program, the school board, administration, and an educator from each school. The Policy will be monitored and progress evaluated, with an annual report to the school board.

As needed the Wellness Committee will request that the superintendent notify the Merrimack School Board regarding any changes that have occurred in federal and state nutrition guidelines that need to be reflected in this Policy.

At least once every three years, the district will evaluate compliance with the wellness policy to assess the implementation of the policy.

The superintendent of school s is responsible for ensuring that this policy is implemented.

Retaliation or False Accusations Prohibited (RSA 193-F:4,II(b))

Students

All students will be provided with a copy of this policy annually. If the student is more comfortable reporting the alleged act to a person other than the principal, the student may tell any school district employee or volunteer about the alleged bullying.
2. The principal may develop a system or method for receiving anonymous reports of bullying. Although students, parents, volunteers and visitors may report anonymously, formal disciplinary action may not be based solely on an anonymous report. Independent verification of the anonymous report shall be necessary in order for any disciplinary action to be applied.
3. The administration may develop student reporting forms to assist students and staff in filing such reports. An investigation shall still proceed even if a student is reluctant to fill out the designated form and chooses not to do so.
4. Upon receipt of a report of bullying, the principal shall commence an investigation consistent with the provisions of Section XI of this policy.

Staff Reporting

1. An important duty of the staff is to report acts or behavior that they witness that appears to constitute bullying.
2. All district employees and school volunteers shall encourage students to tell them about acts that may constitute bullying. For young students, staff members may provide direct assistance to the student.
3. Any school employee or school volunteer who witnesses, receives a report of, or has knowledge or belief that bullying may have occurred shall inform the principal as soon as possible, but no later than the end of that school day.
4. Upon receipt of a report of bullying, the principal shall commence an investigation consistent with the provisions of Section XI of this policy.

In order to satisfy the reporting requirements of RSA 193-F:6, the principal or designee shall be responsible for completing all New Hampshire Department of Education forms and reporting documents of substantiated incidents of bullying. Said forms shall be completed within 10 school days of any substantiated incident. Upon completion of such forms, the principal or designee shall retain a copy and shall forward one copy to the superintendent. The superintendent shall maintain said forms in a safe and secure location.

Notifying Parents of Alleged Bullying (RSA 193-F:4,II(h))

The principal shall report to the parents of a student

who has been reported as a victim of bullying and to the parents of a student who has been reported as a perpetrator of bullying within 48 hours of receiving the report. Such notification may be made by telephone, writing or personal conference. The date, time, method, and location (if applicable) of such notification and communication shall be noted in the report. All notifications shall be consistent with the student privacy rights under the applicable provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA).

Waiver of Notification Requirement (RSA 193-F:4,II(i))

The superintendent may, within a 48 hour time period, grant the principal a waiver from the requirement that the parents of the alleged victim and the alleged perpetrator be notified of the filing of a report. A waiver may only be granted if the superintendent deems such a waiver to be in the best interest of the victim or perpetrator. Any waiver granted shall be in writing.

Investigative Procedures (RSA 193-F:4,II(j))

1. Upon receipt of a report of bullying, the principal shall, within 5 school days, initiate an investigation into the alleged act. All interviews shall be conducted privately, separately and shall be confidential. Each individual will be interviewed separately and at no time will the alleged victim and perpetrator be interviewed together during the investigation.

4. A maximum of 10 school days shall be the limit for the completion of the investigative procedural steps.
5. Factors the principal or other investigator may consider during the course of the investigation, including but not limited to:

 - How often the conduct occurred;
 - Whether there were past incidents or past continuing patterns of behavior;
 - The identity and number of individuals who participated in bullying behavior;
 - Whether the alleged victim felt or perceived an imbalance of power as a result of the reported incident; and
 - The date, time and method in which parents or

legal guardians of all parties involved were contacted.

6. The principal shall complete the investigation within 10 school days of receiving the initial report. If the principal needs more than 10 school days to complete the investigation, the superintendent may grant an extension of up to 7 school days. In the event such extension is granted, the principal shall notify in writing all parents involved of the granting of the extension.
7. Whether a particular action or incident constitutes a violation of this policy shall require a determination based on all facts and surrounding circumstances and shall include recommended remedial steps necessary to stop the bullying and a written final report to the principal.
8. Students who are found to have violated this policy may face discipline in accordance with other applicable board policies, up to and including suspension or expulsion. Students facing discipline will be afforded all due process required by law.

Response to Remediate Substantiated Instances of Bullying (RSA 193-F:4,II(k))

Consequences and appropriate remedial actions for a student or staff member who commits one or more acts of bullying or retaliation may range from positive behavioral interventions up to and including suspension or expulsion of students and dismissal from employment for staff members.

Consequences for a student who commits an act of bullying or retaliation shall be varied and graded according to the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance. Remedial measures shall be designed to correct the problem behavior, prevent another occurrence of the problem, protect and provide support for the victim, and take corrective action for documented systematic problems related to bullying.

Examples of consequences may include, but are not limited to:

- Admonishment
- Temporary removal from classroom
- Deprivation of privileges
- Classroom or administrative detention
- Referral to disciplinarian
- In-school suspension

- Expulsion

Examples of remedial measures may include, but are not limited to:

- Restitution
- Mediation
- Peer support group

- Corrective instruction or other relevant learning experience
- Behavior assessment

In support of this policy, the board promotes preventative educational measures to create greater awareness of aggressive behavior, including bullying. The board encourages the superintendent to work collaboratively with all staff members to develop responses other than traditional discipline as a way to remediate substantiated instances of bullying.

Reporting of Substantiated Instances of Bullying (RSA 193-F:4,II(l))

The principal shall forward all substantiated reports of bullying to the superintendent upon completion of the principal's investigation.

3. If the parents request, the principal shall schedule a meeting with them to further explain his/her findings and reasons for his/her actions.
4. In accordance with the Family Educational Rights and Privacy Act and other law concerning student privacy, the district will not disclose educational records of students including the discipline and remedial action assigned to those students and the parents of other students involved in a bullying incident.

Appeal

1. The procedures under RSA 193:13, Ed 317, and district policies establish the due process and appeal rights for students disciplined for acts of bullying.
2. The school board or its designee will inform parents of any appeal rights they may have to the New Hampshire State Board of Education.

School Officials (RSA 193-F:4,II(n))

The superintendent of schools is responsible for ensuring that this policy is implemented. The superintendent may establish additional procedures to facilitate the implementation of this policy.

Capture of Audio Recordings on School Buses

Pursuant to RSA 570-A:2, notice is hereby given that the board authorizes audio recordings to be made in conjunction with video recordings of the interior of school

buses while students are being transported to and from school or school activities. The superintendent shall ensure that there is a sign informing the occupants of school buses that such recordings are occurring.

Use of Video or Audio Recordings in Student Discipline Matters

The district reserves the right to use audio and/or video recording devices on district property (including school buses) to ensure the health, safety and welfare of all staff, students and visitors. Placement and location of such devices will be established in accordance with the provisions of Policy EEAA.

In the event an audio or video recording is used as part of a student discipline proceeding, such video may become part of a student's education record. The superintendent is authorized to contact the district's attorney for a full legal opinion in the event of such an occurrence.

STUDENT TRANSPORTATION POLICY

New Hampshire statutes grant authority to school officials in matters of school discipline. (Revised Statutes Annotated, Chapter 189, Section 15) Revised Statutes Annotated, Chapter 189:9-a and Revised Statutes Annotated, Chapter 193:13 refer to the authorization of the superintendent, or his/her representative, to suspend and/or dismiss students for specific reasons. It is recognized that bus drivers, administrators, and the transportation coordinator need discretionary power to invoke disciplinary actions and procedures, and to maintain a safe climate for all students.

The purpose of the Student Transportation Policy is to provide clear and consistent guidelines for a safe environment. In order to achieve this purpose, we need to teach and expect respect for self and others as well as insure the physical safety of all. Students are responsible for their actions and need to be held accountable for their decisions. They need to know adults care enough for them to ensure that they adhere to transportation rules. School personnel and the transportation provider have a responsibility to confront students if they are acting inappropriately at any time.

It is the bus driver's responsibility to maintain good discipline on the bus. Misbehavior will result in corrective action by the bus driver, transportation coordinator, and/or administration.

ROLE DESCRIPTIONS AND APPEAL GUIDELINES

Students

Students are responsible for following the rules of the Transportation Discipline Code at all times. They must understand that riding the school bus is a privilege that may be temporarily denied or permanently revoked, and are expected to conduct themselves properly while riding the bus.

Parents

Parents are responsible for ensuring that their children are aware and understand the consequences of the Transportation Discipline Code. They are responsible for the safety of their children from the time they leave home in the morning until the time they board the school bus; and at the end of the school day from the time the school bus departs the unloading area until the children reach home. Once the child enters the school bus, the authority lies with the bus driver and the school administration.

Bus Driver

Each bus driver is responsible for maintaining discipline on the bus. Bus drivers shall maintain the same type of order on buses as educators maintain in the classroom consistent with school district policy. The bus driver's report of an infraction is considered to have the same weight as a classroom infraction reported by an educator. All bus infractions shall be reported to the School District Transportation Coordinator.

Transportation Coordinator

The Transportation Coordinator is responsible for enforcing all busing policies of the Merrimack School District. He/She may issue bus suspensions in accordance with the Transportation Discipline Code and shall also consult with the building principal and/or his designee regarding in-school consequences for bus behavior infractions.

Building Principal and/or his/her Designee

The building principal and/or his/her designee shall issue in-school consequences for bus behavior infractions after consultation with the Transportation Coordinator in accordance with the Transportation Discipline Code.

Assistant Superintendent/Business Administrator

The Assistant Superintendent/Business Administrator, upon request from the parent/guardian of the student in receipt of a disciplinary consequence, shall review the actions taken by the bus driver, transportation coordinator, and building principal as the first level in the local appeal process.

Superintendent of Schools

The superintendent, upon request from the parent/guardian of the student in receipt of a disciplinary consequence, shall review the actions taken by the bus driver, transportation coordinator, building principal and the assistant superintendent/business administrator as the second level in the local appeal process.

School Board

The school board, upon request from the parent/guardian of the student in receipt of a disciplinary consequence, shall review the actions taken by the bus driver, transportation coordinator, building principal and the assistant superintendent/business administrator, and the superintendent as the third and final level in the local appeal process provided that the superintendent received such appeal in writing within 10 days after the issuance of the decision being appealed per RSA 193:13-C.

Pupils Entitled to and Privileged to Transportation Services

1. It shall be the general policy of the school board that no child should be required to walk more than one mile to an assigned school or an established school bus pickup point.
2. The board may make exceptions to the general policies in cases involving pupils found by the board to be suffering from physical disabilities or in other cases where the board deems there is sufficient justification to make an exception.
3. In the case where a student is of necessity tuitioned out of the school district by the school board, it shall be the policy of the board to pay a sum not to exceed State Average cost for tuition as transportation allowance.
4. School buses are owned and operated by a private contractor, who is responsible for enforcing the law and these regulations as they pertain to the bus drivers. All buses shall be operated in strict compliance with the law in regard to equipment, speed and safety factors. Each driver is expected to be familiar with the law relating to the operation of school buses.

Policy for Students Riding the Bus

1. Pupils are expected to conduct themselves properly while riding the bus. Pupils who violate accepted standards for proper conduct will be reported to the transportation coordinator and/or his/her designee for appropriate disciplinary action. Any violation may subject the pupil to suspension from riding the bus or other consequences (see Transportation Discipline Code). In the event of inappropriate conduct on the part of a student, the following procedures will apply:
 - a. The student will be given oral or written notification of the charges as soon as possible.
 - b. The student will be given a conference with an opportunity to give his/her side of the story to the transportation coordinator/building principal and/or his/her designee.
 - c. The transportation coordinator/building principal and/or his/her designee will decide if the infraction warrants suspension of the privilege to ride the bus or other consequences.
 - d. In the event a suspension of privilege is necessary, the student and parent will be notified either in writing or by telephone as soon as possible.
 - e. If a parent of a student desires a conference, the parent may call the transportation coordinator and time shall be arranged in accordance with RSA 189:9-a.
 - f. In the event of a suspension of privileges, and a conference with the transportation coordinator/building principal and/or his/her designee has been held, parents may appeal the decision in accordance with the appeal guidelines.

2. Pupils shall be expected to board their assigned school bus route at the authorized and designated stop which serves their residence. It is expressly understood that any efforts undertaken by a parent/guardian allowing their child(ren) to board their assigned bus at another stop along the same route is done wholly at their own risk with respect to the safety interests of themselves, their child(ren), and that of others assigned to any alternate stop along the same bus route, and that neither the Merrimack School District nor the Transportation Company can be responsible for any resultant consequences thereof.

In cases of hardship, the Transportation Coordinator will review, evaluate, and decide upon requested bus route changes on an individual basis. An alternate bus route will be recommended only if space is available. If the Transportation Coordinator does not approve a parental request to modify a bus stop or route, the decision may be appealed in writing to the School Transportation Committee. Members of the School Transportation Committee include a school board member, the Transportation Coordinator, and the Business Administrator.

3. Pupils must be on time at the designated bus stops to meet the school bus. School buses operate on a schedule and will not wait for pupils at bus stops.
4. Unnecessary talking with the school bus operator is prohibited.
5. Ordinary conversation between pupils is permitted, but loud, vulgar and improper language/actions will not be tolerated.
6. Smoking is not permitted on the school buses.
7. Waste paper or other articles shall not be thrown on the floor or out the window.
8. Pupils are not permitted to get on or off the bus while it is in motion.
9. Pupils shall not place any body part or object out of windows.
10. Pupils shall go to the rear of the bus when getting on unless assigned to a seat near the front of the bus by the school bus driver.
11. The emergency exits shall be used only in cases of emergency.
12. All pupils shall be seated while the bus is in motion.
13. Pupils shall not write on or damage the bus. Pupils damaging the buses shall pay for the damage.
14. Fighting on the school bus will not be tolerated.
15. The school principal and/or his/her designee or bus driver may assign seats to pupils riding school buses.
16. Any pupil denied bus transportation home from school on a given day will be transported at the direction of the principal and/or his/her designee.

17. The parent/guardian of a student that has been a victim of undesirable bus behavior by another student shall be notified by the school district administration based on the magnitude of the incident.

STUDENT USE OF INFORMATION TECHNOLOGY

Introduction

The Merrimack School District recognizes that information technology is a tool that, when responsibly applied, enhances the classroom experience and extends learning beyond the school walls. With information technology saturating nearly every aspect of our lives, it is incumbent upon the district to provide the members of the school community with an understanding of what the district considers to be appropriate use of information technology by students.

While this policy is intended to provide guidelines for responsible use of information technology, it cannot cover all possible uses. When using district-provided information technology, students must demonstrate the same level of responsibility and appropriate behavior as they would in using any other district resource. Students must also recognize that their personal online conduct, whether or not it utilizes district provided Information Technology, may have implications in school and school-affiliated activities.

Definitions

1. District Information Technology – District Information Technology includes all Merrimack School District computers, computing devices, software, servers, desk phones, cell phones, and network and internet connectivity.
2. District-Related Activities - District-Related Activities includes any matter pertaining to schools, students, instruction, school and student events, co-curricular activities and clubs, outings or trips, or any other matters involving district operations.

Guidelines for Responsible Use of District Information Technology

The following Guidelines are intended to establish the parameters of Responsible Use of Information Technology in the District. In addition, students are expected to comply with all rules and policies of the school and the Merrimack School District, including the Code of Conduct, set forth below, in all school-related communication and online activity.

Students demonstrating Responsible Use of Technology will:

1. Comply with all applicable laws and regulations, such as copyright laws and “fair-use” guidelines.
2. As available, use district-provided communication systems (eg; SchoolWorld, school e-mail) when communicating with staff and faculty regarding school work, activities or events, and limit such use to school-related matters.
3. Recognize that District Information Technology is intended to support the education mission of the district. Given the limited nature of some technology resources (student-use computers, bandwidth) priority will be given to school-related use.

- a. Staff reserve the right to adjust and assign technology resources accordingly.
- b. School-provided accounts may be used for instruction, registration on third party sites licensed or selected by district educators, and communication regarding district-related activities.
4. Conduct all school-related communication in a respectful, appropriate and responsible manner at all times. This extends to all communication, whether electronic or in print, and all representation of the school, regardless of venue or occasion.
5. Protect privacy of fellow students in all communications.
6. Request technical assistance and report misuse, abuse, or problems with District Information Technology, or related district equipment, to the appropriate technology staff immediately upon discovery.
7. Help maintain the integrity of district technology by not engaging in the following activities, or those of a similar nature, and by reporting any knowledge of such activity by others to a educator, administrator or other responsible adult:
 - a. using or attempting to use others' credentials, identities, passwords or logins
 - b. hacking
 - c. adding unauthorized software to district systems
 - d. disabling or attempting to disable the district's filtering/blocking technology
 - e. intentionally or maliciously damaging district computers or technology devices or causing disruption or interruption to district network internet systems
 - f. using or misusing district resources, especially bandwidth, when directed not to

Cautions to Users of District Information Technology

1. District Information Technology is the property of the district and remains under the control, custody and supervision of the district. Information contained on or transmitted through the district server or network is not private and the district reserves the right to monitor and inspect all student use of District Information Technology, even if conducted after school hours and off of school premises.
2. Any electronic communication pertaining to school-related matters is subject to this policy and may be considered a public record, regardless of the device or network used. Student use of personal devices on the district network is a privilege and not a right. By bringing and using personal devices on the district's network, students consent to a search of the device as a term and condition of using the network.
3. Use of personal computers and other technology devices are subject to the Student Use of Information

Technology Policy, the District Policy on Pupil Safety and Violence Prevention – Bullying, and school-level behavior expectations and discipline codes. Violation of these policies and expectations MAY result in inspection of such devices.

4. The Merrimack School District is not responsible for any loss of data due to circumstances beyond its control or from users' errors or omissions. The district is not responsible for loss, damage or theft of personally owned electronic devices.
5. The use of Information Technology in the district is a right that comes with responsibility. Inappropriate use may result in the curtailment of that right. District administrators or their designees shall make all decisions regarding whether or not a user has violated these guidelines and may deny, revoke, or suspend access at any time.
6. Any student who fails to comply with the Guidelines for Responsible Use or violates the Code of Conduct set forth in this policy will be subject to disciplinary action in accordance to the district policy on Student Conduct, Discipline and Due Process - Safe School Zone and individual school discipline procedures, and depending on the nature of the violation, may also be referred to law enforcement.

Student Use of Social Media

The Merrimack School District recognizes that social media, in all its forms and iterations (e.g. blogs, MS 365, Facebook, Twitter, Tumblr, YouTube, etc.), can be an important tool of education and communication. As such, its availability as a resource is understood as just one component of the district's overall educational mission. Toward this end, students must:

- Use social media for school-related purposes in a manner consistent with the expectations set forth in this policy
- Use appropriate online behavior, including proper interactions with others on social networking web sites
- Strive to protect the privacy of fellow students
- Understand that what is posted online can be captured and stored
- Not post material that could be considered malicious, obscene, threatening, harassing or disparaging towards fellow students, district staff and volunteers, or parents
- In addition to adhering to this policy, students are also required to follow the District Policy on Pupil Safety and Violence Prevention – Bullying. Students must recognize that any online incident, whether or not it occurs outside of school, that impacts the ability of the district to provide a "safe, secure and peaceful environment" for all students will be addressed according to school, district, and/or legal disciplinary procedures

- Remember that personal postings shared on the Internet, through text or other digital communication may be forwarded, shared, or published without the owner's knowledge, and could become viewable by unintended audiences such as students, educators, parents, employers, and college recruiters. Therefore, it is important to portray a respectable image at all times.

Code of Conduct/Prohibited Activities

All students using District Information Technology shall comply with the following rules of conduct and must understand that just because you *CAN* access/do something doesn't mean you *SHOULD*.

1. Do not use District Information Technology to find, view, or distribute threatening, harassing, discriminatory, defamatory, sexually explicit, obscene, pornographic, violent or otherwise inappropriate material.
2. Do not use District Information Technology for private financial or commercial purposes or as a forum for communicating the views of or for soliciting membership, support, or contributions in or to any non-school sponsored or non-school recognized group or organization.
